Dead Men Risen Jul 27 2020 Dead Men Risen, winner of the prestigious Orwell Prize for Books, is the epic story of a beleaguered British battle group fighting desperately to prevent the Taliban from seizing Afghanistan's Helmand province just as the U.S. Marines arrive to take over. Bestselling author Toby Harnden describes how men from the coal mining valleys and slate quarry villages of Wales found themselves in the most intense combat faced by British troops for a generation. Underequipped and overstretched, the fighting prowess of the

Welsh Guards in the killing fields of Sangin and Nawa awed the U.S. Marines. NATO commander General Stanley McChrystal, who was awaiting a response to his urgent request to President Barack Obama for more troops, hailed their "burn-in-your-gut passion."

Harnden was on the ground with the Welsh Guards in Helmand in 2009. He gained access to a trove of secret military documents and conducted nearly three hundred interviews in Afghanistan, England, Wales, and the United States to produce this timeless and profound account of men at war. Commanding the Welsh Guards was Lieutenant Colonel Rupert Thorneloe, a passionate believer in the justness of the war who was dismayed by the military and political incompetence surrounding it. In chilling detail, Harnden reveals how and why Thorneloe—the first British battalion commander to die in action since the 1982 Falklands War—was killed by an IED during Operation Panther's Claw. By the time the fighting was over, almost no rank had been spared. From the searing heat of the poppy fields and the mud compounds of Helmand to the dreaded knock on the door back home, the reader is transported there. Harnden weaves the experiences of the soldiers, their historical forbears and the flawed NATO strategy into a masterly narrative. No other book about modern conflict succeeds on so many levels. Dead Men Risen is essential for anyone who wants to understand the reality of the Afghan war for the U.S and its allies.

[Pain Is Weakness Leaving the Body](#) Dec 20 2019 An honest reckoning with the war on terror, masculinity, and the violence of American hegemony abroad, at home, and on the psyche, from a veteran whose convictions came undone When Lyle Jeremy Rubin first arrived at Marine Officer Candidates School, he was convinced that the "war on terror" was necessary to national security. He also subscribed to a strict code of manhood that military service conjured and perpetuated. Then he began to train and his worldview

shattered. Honorably discharged five years later, Rubin returned to the United States with none of his beliefs, about himself or his country, intact. In *Pain Is Weakness Leaving the Body*, Rubin narrates his own undoing, the profound disillusionment that took hold of him on bases in the U.S. and Afghanistan. He both examines his own failings as a participant in a prescribed masculinity and the failings of American empire, examining the racialized and class hierarchies and culture of conquest that constitute the machinery of U.S. imperialism. The result is a searing analysis and the story of one man's personal and political conversion, told in beautiful prose by an essayist, historian, and veteran transformed.

Gershon looks back to the 1970's, exposing the fragile interactions between two families, one black and the other white, during the days when racial integration was still a new idea to inhabitants of the rural deep south. *The Haint* mixes a monster folk tale with the plight of an American Indian orphan named Sploon. *The surreal Flames* is a take on the burgeoning pharmaceutical industry and its often insidious effects on society when human ego and greed are added to the mix. *The fast moving Serpenta* is a fantasy that peeks into a future where religion has been eliminated and global government has morphed into a giant control grid run by a ruthless regime that executes anyone who does not comply to its rules.
