**Commerce and Monetary Systems in the Ancient World** Feb 01 2021 This volume forms the proceedings of the Fifth Annual Symposium of the Assyrian and Babylonian Intellectual Heritage Project held in Innsbruck in 2002. Twenty-nine specialist contributions focus on the economic aspects of the `diffusion and transformation of the cultural heritage of the ancient Near East'. Eight thematic sections discuss: Near Eastern economic theory; Mesopotamia in the third millenium BC; Mesopotamia and the Levant in the first half of the first millennium BC; Levant, Egypt and the Aegean world during the same time span; Greece and Achaemenids, Parthians, Sasanians and Rome; social aspects of this exchange, including its affects on religion, borders, education and cosmology. The scope of the papers is wide, with subjects including Babylonian twin towns and ethnic minorities, archaic Greek aristocrats, the Phoenicians and the birth of a Mediterranean society, slavery, Iron Age Cyprus, Seleucid coins, the `Silk Route', and Greek images of the Assyrian and Babylonian kingdoms. Sixteen papers in English, the rest in German.

*The Fight for Greek Sicily* Apr 22 2020 The island of Sicily was a highly contested area throughout much of its history. Among the first to exert strong influence on its political, cultural, infrastructural, and demographic developments were the two major decentralized civilizations of the first millennium BCE: the Phoenicians and the Greeks. While trade and cultural exchange preceded their permanent presence, it was the colonizing movement that brought territorial competition and political power struggles on the island to a new level. The history of six centuries of colonization is replete with accounts of conflict and warfare that include cross-cultural confrontations, as well as interstate hostilities, domestic conflicts, and government violence. This book is not concerned with realities from the battlefield or questions of military strategy and tactics, but rather offers a broad collection of archaeological case studies and historical essays that analyze how political competition, strategic considerations, and violent encounters substantially affected rural and urban environments, the island’s heterogeneous communities, and their social practices. These contributions, originating from a workshop in 2018, combine expertise from the fields of archaeology, ancient history, and philology. The focus on a specific time period and the limited geographic area of Greek Sicily allows for the thorough investigation and discussion of various forms of organized societal violence and their consequences on the developments in society and landscape.

*Liver Growth and Repair* Nov 10 2021 Nelson Fausto The Greek myth of Prometheus with its picture of a vulture feasting on its chained victimhas traditionallyprovided a visualimageofliverregeneration. Itis apowerful and frightening representationbut ifone were to substitute the vulture by a surgeon and Prometheus by a patient laying on a properly prepared operating table, the outcomeoftheprocedurewould not differ significantlyfrom that describedbyGreek poets. Yet few of us who work in the field have stopped long enough to ask where this myth originated. Did the poet observe a case of liver regeneration in a human being? Was it brilliant intuition or perhaps, literally, just a 'gut feeling' of a poet looking for good rhymes that led to the prediction that livers grow when part of the tissueisremoved? Thisbookdoesnotattemptto solve these historical issues. Itdoes, instead, cover in detail some of the major modern themes of research on liver regen eration, injury and repair. As indicated in Dr. N. Bucher's chapter, the modern phase ofexperimental studies on liver regeneration started in 1931 with the publication by Higgins and Anderson of a method to perform a two-thirds resection of the liver of a rat. The technique described has 3 remarkable features: 1) it is highly reproducible, resulting in the removal of 68% of the liver, 2) it has minimal if any mortality, and 3) it consists only of blood vessel ligation and does not involve cutting through or wounding hepatic tissue.

**Digital Resources, Creativity and Innovative Methodologies in Language Teaching and Learning** Feb 13 2022 The concept of university language centres has changed in recent decades. Initially conceived as laboratories for practical and autonomous language-learning, they are now considered as places with more specific and complex functions in language teaching and learning. University language centres now constitute networks for exchanging knowledge and know-how in order to respond to ever-changing, multilingual and multicultural contexts. At the same time, the availability and acquisition of new technologies is contributing to the creation of new tools for the provision of appropriate services and training. This collection covers a wide range of topics related to the activities, experiences and applied research carried out in Italian university language centres. It provides further evidence of the important role university language centres play in promoting language expertise, developing tools and adopting digital resources, and providing support and training for language teaching. Technology, creativity, methodologies and plurilingualism are key topics in the book as they constitute the essential ingredients for effective and successful language teaching and learning. The volume’s thirty-three chapters provide multi-perspective approaches, showing how the real contexts of current language education need the integration of theoretical backgrounds with the best practices resulting from practical experience.

Annuario della Scuola Archeologica di Atene e delle Missioni Italiane in Oriente, Supplemento 8. Monetary and social aspects of Hellenistic Crete Apr 03 2021 Nel giugno del 2018 presso la Scuola Archeologica Italiana ad Atene si è svolto il convegno internazionale di studi Monetary and Social Aspects of

Hellenistic Crete, al quale hanno partecipato numerosi studiosi di diversi ambiti disciplinari impegnati in ricerche su Creta in epoca ellenistica 1. L'idea di organizzare l'incontro scaturiva dalla volontà di avviare una discussione tra numismatici, archeologi, storici, epigrafisti su aspetti della società cretese tra la fine del IV e il I a.C., al fine di indagare l'incidenza che la moneta ha avuto nello sviluppo delle comunità locali, vuoi se emessa in risposta a esigenze di spesa per assetti urbanistici e difensivi, vuoi se connessa a pratiche di mercenariato o per mobilitazioni di carattere militare, vuoi se funzionale a relazioni commerciali o a scelte di politiche interne e/o esterne [...] Renata Cantilena
