There are oh so many things a mom loves about her young child. But most of all, she just loves him, no matter what. Bestselling author and illustrator LeUyen Pham combines her experience as a mother and her proven storytelling skills in a humorous and heartfelt love letter of a book. In *All the Things I Love About You*, Mama lists the reasons she loves her little boy: the way his hair sticks up in the morning, the way he says "Mama" (even in the middle of the night), and the way he laughs. Simply written and beautifully illustrated, *All the Things I Love About You* honestly speaks to the unconditional love between a mother and her child. Children and parents alike will treasure this heartwarming book and, in reading it together, appreciate the small actions that make love grow stronger every day. A pioneering canine behaviorist draws on cutting-edge research to show that a single, simple trait--the capacity to love--is what makes dogs such perfect companions for humans, and to explain how we can better reciprocate their affection. If you're tired of being frustrated about dating, confused about how to make relationships work, or desperate to get over your ex, or if you just want to be empowered when it comes to love, then this book is for you. Whether you're single, married, in a relationship, or even if "it's complicated," you can finally have that passionate, secure, lasting relationship you've always wanted. This isn't a "how to" book or a guide to understanding men or women. This is a "change your mindset" book. Get ready to reflect, relate, and realize that there's more to love than you ever thought. Class is in session. Teach me how to love! The narrator arrives in Berlin, a place famed for its hedonism, to find peace and maybe love; only to discover that the problems which have long haunted him have arrived there too, and are more present than ever. As he approaches his fortieth birthday, nearing the age where his father was killed in a brutal revolution, he drifts through this endlessly addictive and sometimes mystical city, through its slow days and bottomless nights, wondering whether he will ever escape the damage left by his father's death. With the world as a whole more uncertain, as both the far-right and global temperatures rise at frightening speed, he finds himself fighting a fierce inner battle against his turbulent past, for a future free of his fear of failure, of persecution, and of intimacy. In *The End, It Was All About Love* is a journey of loss and self-acceptance that takes its nameless narrator all the way through bustling Berlin to his roots, a quiet village on the Uganda-Sudan border. It is a bracingly honest story of love, sexuality and spirituality, of racism, dating, and alienation; of fleeing the greatest possible pain, and of the hopeful road home. "Jonah Lehrer has a lot to offer the world. . . . The book is interesting on nearly every page. . . . Good writers make writing look easy, but what people like Lehrer do is not easy at all." —David Brooks, *The New York Times Book Review* Science writer Jonah Lehrer explores the mysterious subject of love. Weaving together scientific studies from clinical psychologists, longitudinal studies of health and happiness, historical accounts and literary depictions, child-rearing manuals, and the language of online dating sites, *Jonah Lehrer's A Book About Love* plumbs the most mysterious, most formative, most important impulse governing our lives. Love confuses and compels us—and it can destroy and define us. It has inspired our greatest poetry, defined our societies and our beliefs, and governs our biology. From the way infants attach to their parents, to the way we fall in love with another person, to the way some find a love for God or their pets, to the way we remember and mourn love after it ends, this book focuses on research that attempts, even in glancing ways, to deal with the long-term and the everyday. The most dangerous myth of love is that it's easy, that we fall into the feeling and then the feeling takes care of itself. While we can easily measure the dopamine that causes the initial feelings of "falling" in love, the partnerships and devotions that last decades or longer remain a mystery. This book is about that mystery. Love, Lehrer argues, is not built solely on overwhelming passion, but, fascinatingly, on a set of skills to be cultivated over a lifetime. There are so many things to love about being you. From your fingers and your toes and your smile, to your dreams for the future. Marriage should be based on love, right? But does it seem as though you and your spouse are speaking two different languages? #1 New York Times bestselling author Dr. Gary Chapman guides couples in identifying, understanding, and speaking their spouse's primary love language—quality time, words of affirmation, gifts, acts of service, or physical touch. By learning the five love languages, you and your spouse will discover your unique love languages and learn practical steps in truly loving each other. Chapters are categorized by love language for easy reference, and each one ends with simple steps to express a specific language to your spouse and guide your marriage in the right direction. A newly designed love languages assessment will help you understand and strengthen your relationship. You can build a lasting, loving marriage together. Gary Chapman hosts a nationally syndicated daily radio program called *A Love Language Minute* that can be heard on more than 150 radio stations as well as the weekly syndicated program *Building Relationships* with Gary Chapman, which can both be heard on five Lovelanguages.com. The *Five Love Languages* is a consistent New York Times bestseller - with over 5 million copies sold and translated into 38 languages. This book is a sales phenomenon, with each year outselling the prior for 16 years running! When Nina Mistry's life hits rock bottom, she decides to change her stars by falling in love...with herself—a hilarious, heartfelt story from outrageously funny novelist Radhika Sanghani. Nina didn't plan to spend her thirtieth birthday in jail, yet here she is in her pajamas, locked in a holding cell. There's no Wi-Fi, no wine, no carbs—and no one to celebrate with. Unfortunately, it gives Nina plenty of time to reflect on how screwed up her life is. She's just broken up with her fiancé, and now has to move back into her childhood home to live with her depressed older brother and their uptight, traditional Indian mother. Her career as a freelance journalist isn't going in the direction she wants, and all her friends are too busy being successful to hang out with her. Just as Nina falls into despair, a book lands in her cell: *How to Fix Your Shitty Life by Loving Yourself*. It must be destiny. With literally nothing left to lose, Nina makes a life-changing decision to embark on a self-love journey. By her next birthday, she's going to find thirty things she loves about herself. This powerful collection of stories, set in the mid-West among the lonely men and women who drink, fish and play cards to ease the passing of time, was the first by Raymond Carver to be published in the UK. With its spare, colloquial narration and razor-sharp sense of how people really communicate, the collection was to become one of the most influential literary works of the 1980s. Tells about where to meet a new beau, how to handle illicit affairs and how to maintain your allure. We're facing a crisis in care likely to affect every one of us over the course of our lives. Care-work is underpaid; its values disregarded. Britain's society lauds economic growth, productivity and profit over compassion, kindness and empathy. For centuries the caring labours of women have been taken for granted, but with more women now in work, with increasing numbers of elderly and with austerity dismantling the welfare state, care is under pressure as never before. Over

five years, Madeleine Bunting travelled the country, speaking to charity workers, doctors, social workers, in-home carers, nurses, palliative care teams and parents, to explore the value of care, the hidden glue that binds us together. She finds remarkable stories, in GP surgeries, in work undertaken by parents for their disabled children and in end-of-life teams, that conjure a different way of imagining our society and the connections between us. Blending these revelatory testimonies with a history and language of care, and with Bunting's own experiences of caring for the young and old in her family, *Labours of Love* is a hugely important portrait of our nation today - and of how it might be - which raises a clarion call for change. This groundbreaking book, with more than 150,000 copies sold, is back by popular demand. Updated with new data and examples, *Is It Love or Is It Addiction?* helps the reader distinguish between healthy love and destructive relationships. Love it? Hate it? Or, just don't care? How we feel about something dramatically affects how we interact with it. When we feel, we care. When we care, things happen. Companies that are thriving, not just surviving, are much more than a set of ruthlessly efficient and mechanistic processes - they are a social system operated by people for people. The quality of relationships, both inside and outside the organization is a far more important driver of sustainable success or failure than the quality of its control systems. The head is important, but it is the heart that matters most. If you want your customers to be brand ambassadors and your employees to brag about you to their friends, you need them to not just think you're great - you need them to feel you're great. You need them to love you - and for that, you need them to feel that you love them. For over a decade Marc Cox has been helping companies whose toxic cultures, miserable employees, and angry customers have all but destroyed them to rebuild their company spirit, discover the business case for love and build an organization that is wonderful to work for, brilliant to do business with and has the mindset of creating memorable employee and customer experiences. Underpinned by fresh insights and perspectives, robustly tested and refined by the real world experience of working with a wide range of companies and over 2,000 senior executives drawn from all parts of the world, and filled with fascinating and illustrative "love stories" the book will help you to make the business case for love. It will help you to find a more rewarding and invigorating way of working - both emotionally and financially. In short, it shows what happens when the love is put back into business. A New York Times bestseller and enduring classic, *All About Love* is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. *All About Love* reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in *All About Love*. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The *Utne Reader* declared bell hooks one of the "100 Visionaries Who Can Change Your Life." *All About Love* is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better. 100 Reasons What I Love About You Book for Boyfriend!
