Primal instinct meets the power of choice in this go-to guide to getting the guy. The last time you locked eyes with a gorgeous, manly specimen across the room or took a detour past the object of your affection, fluffing your locks on your way to the powder room, you probably didn't think

you were performing an ancient mating dance. Whether the fashion of the day is miniskirts or mammoth hides, the knowing glances, chest puffing, hair tossing, and backside brandishing are all part of a complicated ritual choreographed over epochs and designed for your very survival. Thankfully, evolution has taken care of the hard part, leaving today's woman with the sometimes daunting task of deciphering the intriguing, often infuriating signals of modern man. In this smart, funny, and invaluable book, nationally renowned body language expert Tonya Reiman decodes the complicated dating game. While some of us seem to have been born with a razor-sharp "sexual instinct," the rest of us could use a little practice. Luckily, the formula for dating success is easy to learn. Within these pages, you'll discover how to display the body language necessary for making solid connections with potential mates, uncover the mysteries of man himself, and find handy new tricks for your attraction arsenal. Not only that, *The Body Language of Dating* will teach you how to: Whether you feel like you couldn't attract a fireman with your head ablaze or just want to give your seasoned connection-rejection ratio a boost, Tonya Reiman will help you shave time, effort, and heartbreak from your mating quest. She didn't make the rules, but she sure can teach you how to use them. \* Read a guy's facial expressions, gestures, and posture for clues to his state of mind. \* Tell long-term mates from short-term dates. (Hint: You can often tell just by looking at him!) \* Send silent messages that tug on your hottie's heartstrings. \* Save yourself from losers like Not-Interested Nate and Stalker Steve and get straight to Mr. Right (or Mr. Right Now). \* Wield the science of scent

in any social situation. Whether you feel like you couldn't attract a fireman with your head ablaze or just want to give your seasoned connection-rejection ratio a boost, Tonya Reiman will help you shave time, effort, and heartbreak from your mating quest. She didn't make the rules, but she sure can teach you how to use them. When beautiful half-succubus Lucy Gregory's antique chest unleashes a Pandora's box of demonic activity in a suburban beauty salon, brooding demon Rafe arrives to run damage control. Original. This book explores one of the most popular genres in film history. Combining classic and recent articles, each section explores a central issue of the musical, including: the musical's significance as a genre; the musical's own particular representation of sexual difference; the idea of camp, both through stars such as Judy Garland and Carmen Miranda and musicals themselves; and the displacement of race in Hollywood's representations of entertainment. Each section features an editor's introduction setting debates in context. How long does it take to decide if a person is hot? Is your lover more likely to get you pregnant than your husband? Can men tell when a woman is fertile? If you've ever wondered how scientists measure love—or whether men really prefer blondes over brunettes—this smart, sexy book provides real answers to these and many other questions about our most baffling dating and mating behaviors. Based on the latest research in biology, evolutionary psychology, neuroscience, and cognitive science, *Do Gentlemen Really Prefer Blondes?* dares to explain the science behind sex—and opens a fascinating window on the intriguing phenomenon of love and attraction. Covering the areas of bodies, brains, and behavior, this eye-opening guide reveals the genetic, hormonal, and psychological secrets behind what makes us tick sexually. For example, do you know why a man's body chemistry and behavior change when he's in a committed relationship? And why, when he becomes a daddy, his testosterone level seems to plummet? And did you know...

- When a couple first fall in love, their brains are indistinguishable from those of the clinically insane
- You can tell a lot about a person's sexual chemistry just by looking at his or her hands
- Your genes influence whose body odors you prefer
- Being around

breast-feeding women may increase a woman's sex drive Viewed through the lens of science and instinct, your love life might be seen in a completely different way. *Do Gentlemen Really Prefer Blondes?* provides both an in-depth exploration into our sexual psyches—and fresh advice for men and women who want to discover the secrets of successful relationships. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant. In this captivating book Anthony Synnott explores a subject which has been woefully ignored: our bodies. He surveys the history for thinking about the body and the senses, then focuses on specific themes: gender, beauty, the face, hair, touch, smell and sight. He concludes with a review of classical and contemporary theories of the body and the senses. Thinking about the body will never be the same after reading this book. Smart women, sophisticated ladies, savvy writers . . . Edna St. Vincent Millay, Dorothy Parker, Anita Loos, Lois Long, Jessie Fauset, Dawn Powell, Mary McCarthy, and others imagined New York as a place where they could claim professional status, define urban independence, and shrug off confining feminine roles. It might be said that during the 1920s and 1930s these literary artists painted the town red on the pages of magazines like *Vanity Fair* and the *New Yorker*. *Playing Smart*, Catherine Keyser's homage to their literary genius, is a captivating celebration of their causes and careers. Through humor writing, this "smart set" expressed both sides of the story—promoting their urbanity and wit while using irony and caricature to challenge feminine

stereotypes. Their fiction raised questions about what it meant to be a woman in the public eye, how gender roles would change because men and women were working together, and how the growth of the magazine industry would affect women's relationships to their bodies and minds. Keyser provides a refreshing and informative chronicle, saluting the value of being "smart" as incisive and innovative humor showed off the wit and talent of women writers and satirized the fantasy world created by magazines. Offering new research and analysis on the relation between gender and evolution, this book explains conflict between the sexes and the frequent emergence and stubborn continuation of patriarchal regimes that serve to control the behavior of women in societies around the world, both past and present. Women and men are different, on average. But that does not mean they are unequal. Indeed, understanding average differences is key to the full realization of equality in health care and other dimensions of social life. Hopcroft shows that gender differences in physiology, psychology, and behavior can be traced to slight differences in evolved traits between men and women. These differences exist because of sex differences in investment in offspring, which meant that, in the environment of evolution, some adaptive problems were more important for men to solve than for women, and vice versa. For men, the most important adaptive problem to solve was that of finding a mate. Men who did not solve this problem are not our ancestors. For women, the most important adaptive problem to solve was that of successfully bearing and raising children. Women who did not solve this problem are not our ancestors. These small differences underlie all the differences described in the book, including sex differences in mate preferences, physiology, cognition, aggression, status striving, and emotional experience. It can also help explain the differential treatment of children by parents, the differential success of boys and girls in modern schools, and sex differences in style of communication. "Handbook on Evolution and Society" brings together original chapters by prominent scholars who have been instrumental in the revival of evolutionary theorizing and research in the social sciences over the last twenty-five years. Previously unpublished essays provide

up-to-date, critical surveys of recent research and key debates. The contributors discuss early challenges posed by sociobiology, the rise of evolutionary psychology, the more conflicted response of evolutionary sociology to sociobiology, and evolutionary psychology. Chapters address the application and limitations of Darwinian ideas in the social sciences. Prominent authors come from a variety of disciplines in ecology, biology, primatology, psychology, sociology, and the humanities. The most comprehensive resource available, this vital collection demonstrates to scholars and students the new ways in which evolutionary approaches, ultimately derived from biology, are influencing the diverse social sciences and humanities. Pop culture and the media today are saturated with the focus on the aesthetics of the human body. Magazines and infotainment shows speculate whether this or that actress had breast implants or a nose job. Americans are not just focusing on celebrities but on themselves too and today have unprecedented opportunities to rework what nature gave them. One can now drop in to have cosmetic surgery at the local mall. Contemplating the superficial nature of it all grows tiresome, and pop culture vultures and students can get a better fix for their fascination with the body beautiful through the cultural insight provided in this amazing set. Cultural Encyclopedia of the Body is a treasure trove of essays that explore the human body alphabetically by part, detailing practices and beliefs from the past and present and from around the world that are sometimes mind-blowing and eye-popping. Body parts are examined through a multifaceted cultural lens. Readers will explore how the parts are understood, what they mean to disparate societies, how they are managed, treated, and transformed, and how they are depicted and represented. The entries draw from many disciplines that are concerned to some degree or another with human bodies, including anthropology archeology, sociology, religion, political history, philosophy, art history, literary studies, and medicine. The encyclopedia proffers information on a number of cultures, tribes, and customs from East and West. Ancient practices to the latest fad, which in fact might continue ancient practices, are illuminated. Other considerations that arise in the essays include comparisons among cultures, the changing

perceptions of the body, and issues of race, gender, religion, community and belonging, ethnicity, power structures, human rights. "This anthology makes it abundantly clear that feminist film criticism is flourishing and has developed dramatically since its inception in the early 1970s." -- Journal of Aesthetics and Art Criticism Erens brings together a wide variety of writings and methodologies by U.S. and British feminist film scholars. The twenty-seven essays represent some of the most influential work on Hollywood film, women's cinema, and documentary filmmaking to appear during the past decade and beyond. Contributors include Lucie Arbuthnot, Linda Artel, Pam Cook, Teresa de Lauretis, Mary Ann Doane, Elizabeth Ellsworth, Lucy Fischer, Jane Gaines, Mary C. Gentile, Bette Gordon, Florence Jacobowitz, Claire Johnston, E. Ann Kaplan, Annette Kuhn, Julia Lesage, Judith Mayne, Sonya Michel, Tania Modleski, Laura Mulvey, B. Ruby Rich, Gail Seneca, Kaja Silverman, Lori Spring, Jackie Stacey, Maureen Turim, Diane Waldman, Susan Wengraf, Linda Williams, and Robin Wood. Take your communication skills to a whole new level and understand what people really think and feel. What is said is often not what is meant, yet most of us don't know how to 'read between the lines'. Something like an astounding 70% of communication is non-verbal! If you want to be persuasive, build rapport, create a positive impression - be an all-round brilliant and effective communicator - Brilliant Body Language is essential reading. Written by a psychologist with extensive experience helping people hone their interpersonal skills, this book will show you how to read and understand the intricacies of body language and teach you how to use your own body language to get the best out of all your relationships - in life and at work. You will gain: A thorough background in body language - how to read it, how to use it. The ability to know how to establish rapport instantly. The ability to influence and persuade others with ease. An understanding what people really think and feel. The adventures of Rick Dalton, former Key West gay guest house owner, continue as he settles into a new Long Term Relationship with Andres, in their new home in fabulous South Beach, Florida. Mystery, mayhem, and murder follows him wherever he goes. His writing career gets a sudden

boost as another mystery unfolds while he is filling in as manager at a South Beach modeling agency owned by his long term friend, editor, and publisher - Bradley. The most compelling art form to emerge from the United States in the second half of the twentieth century, rock & roll stands in an edgy relationship with its own mythology, its own musicological history and the broader culture in which it plays a part. In Present Tense, Anthony DeCurtis brings together writers from a wide variety of fields to explore how rock & roll is made, consumed, and experienced in our time. In this collection, Greil Marcus creates a collage of words and pictures that evokes and explores Elvis Presley's grisly fate as an American cultural image, while Robert Palmer tells the gripping tale of the origins and meanings of the electric guitar. Rap music, MTV, and the issue of gender identity in the work of Bruce Springsteen all undergo thorough examination; rock & roll's complex relationship with the forces of censorship gets a remarkably fresh reading; and the mainstreaming of rock & roll in the 1980s is detailed and analyzed. And, in an interview with Laurie Anderson and an essay by Atlanta musician Jeff Calder, the artists speak for themselves. Contributors. Jeff Calder, Anthony DeCurtis, Mark Dery, Paul Evans, Glenn Gass, Trent Hill, Michael Jarrett, Alan Light, Greil Marcus, Robert Palmer, Robert B. Ray, Dan Rubey, David R. Shumway, Martha Nell Smith, Paul Smith A Bad Day For A Demon Rafe Deleon is a senior demon and he resents like hell his assignment to Earth to retrieve the Chest of the Damned before it falls into the wrong hands. But then he meets beautiful, intriguing succubus Lucy Gregory, and she's just unleashed a whole load of trouble... Really Sucks For A Succubus Lucy's chic suburban beauty salon has suddenly become the Underworld's center of mass chaos and destruction. The only good thing in a day going rapidly down the tubes is the arrival of a gorgeous demon who's adamant that he can help her. But Lucy has quite a few deeply unpleasant-not to mention deadly and hateful-surprises ahead of her, and surely there's never been a worse time to try out a new boyfriend. In essence, she shows us the difference between simply having blonde hair and being a blonde."--BOOK JACKET. This work has been selected by scholars as being culturally important

McLean explores Hayworth's participation in the creation of her star persona, particularly through her work as a dancer—a subject ignored by most film scholars. In recent years, questions concerning "the body" and its place in postmodern discourses have taken center stage in academic disciplines. *Body Politics* joins these discussions by focusing on the challenges women face when their externally defined identities and representations as bodies—their body fictions—speak louder than what they know to be their true selves. Racialized, gendered, or homophobic body fictions disfigure individuals by placing them beneath a veil of invisibility and by political, emotional, or spiritual suffocation. As objects of interpretation, "female bodies" in search of health care, legal assistance, professional respect, identity confirmation, and financial security must first confront their fictionalized doubles in a collision that, in many cases, ends in disappointment, distress, and even suicide. The contributors reflect on women's day-to-day lives and the cultural productions (literature, MTV, film, etc.) that give body fictions their power and influence. By exploring how these fictions are manipulated politically, expressively, and communally, they offer reinterpretations that challenge the fictional double while theorizing the discursive and performative forms it takes. Contributors include Trudier Harris, Maude Hines, S. Yumiko Hulvey, Debra Walker King, Sue V. Rosser, Stephanie A. Smith, Maureen Turim, Caroline Vercoe, Gloria Wade-Gayles, and Rosemary Weatherston. This book is a study of the relations between the

body and its technologies in modernism. Tim Armstrong traces the links between modernist literary texts and medical, psychological and social theory across a range of writers, including Yeats, Henry James, Eliot, Stein, and Pound. Armstrong shows how modernist texts enact experimental procedures which have their origins in nineteenth-century psychophysics, biology, and bodily reform techniques, but within a context in which the body is reconceived and subjected to new modes of production, representation and commodification. Drawing on a wide range of disciplines, Armstrong challenges the received oppositions between technology and literature, the instrumental and the aesthetic, by demonstrating the leaky boundaries and complex interconnections between these domains. This book offers a cultural history of modernism as it negotiated the enduring fact of the human body in a period of rapid technological change. Analyzes how race and gender intersect in the rhetoric and imagery of popular culture in the early twenty-first century. In *Body as Evidence*, Janell Hobson challenges postmodernist dismissals of identity politics and the delusional belief that the Millennial era reflects a "postracial" and "postfeminist" world. Hobson points to diverse examples in cultural narratives, which suggest that new media rely on old ideologies in the shaping of the body politic. *Body as Evidence* creates a theoretical mash-up of prose and poetry to illuminate the ways that bodies still matter as sites of political, cultural, and digital resistance. It does so by examining various representations, from popular shows like *American Idol* to public figures like the Obamas to high-profile cases like the Duke lacrosse rape scandal to current trends in digital culture. Hobson's study also discusses the women who have fueled and retooled twenty-first-century media to make sense of antiracist and feminist resistance. Her discussions include the electronica of Janelle Monáe, M.I.A., and Björk; the feminist film odysseys of Wanuri Kahiu and Neloufer Pazira; and the embodied resistance found simply in raising one's voice in song, creating a blog, wearing a veil, stripping naked, or planting a tree. Spinning knowledge out of this information overload, Hobson offers a global black feminist meditation on how our bodies mobilize, destabilize, and decolonize the meanings of race and gender in

an increasingly digitized and globalized world. Janell Hobson is Associate Professor of Women's Studies at the University at Albany, State University of New York. She is the author of *Venus in the Dark: Blackness and Beauty in Popular Culture*. Richard Dyer's classic study of movie stars and stardom has been updated, with a new introduction by the author discussing the rise of celebrity culture and developments in the study of stars since publication of the first edition in 1986. Dyer's illuminating study is based around case studies of three major stars: Marilyn Monroe, Paul Robeson and Judy Garland. He draws on a wide range of sources, including the films in which each star appeared, to illustrate how each star's persona was constructed, and goes on to examine each within the context of particular issues in fan culture and stardom. Students of film and cultural studies will find this an invaluable part of their course reading. Determined to be the next Agatha Christie, headstrong widow Paige Turner, a writer for *Daring Detective*, finds herself knee-deep in a real mystery when Babs Comstock, a twenty-four-year-old blonde bombshell, is found strangled to death with a Hopalong Cassidy jump rope. "Q- Do Gentlemen Really Prefer Blondes? A- Marilyn Monroe, Scarlet Johansson and Gwyneth Paltrow would be happy to know that they do. During the Ice Age, when even cavemen were in short supply, the blonde woman really did get her man - simply because her light coloured hair made her stand out. Plus scientists have recently discovered that natural blondes have higher oestrogen levels. In short, golden (preferably long) hair shouts - 'I am young, sexy - and fertile' to every member of the male species within a few miles. Q- When is the best time to seduce my man? A- Your other half will definitely get more possessive and more attracted to you when you're ovulating and at your most fertile. You'll spend time on your make-up and choose next day's outfit before you go to bed. Your lips will be fuller, and your skin will be radiant because of the high levels of oestrogen being pumped through your blood. But don't get carried away by how sexy you feel. You are also more likely to be unfaithful during this period and your boyfriend is also likely to run away with another equally fertile member of the female species. Q- How do I get him to change his wild lifestyle? A- Get

pregnant. Lady Clara Fairfax—from Loretta Chase's New York Times bestselling *Dressmakers* series— finds her own happily ever after in this sizzling, clever romance... Being an ornament to London's aristocratic society has its perks, but politely declining marriage proposals from gentlemen who see only her (admittedly inspiring) beauty, or equally inspiring dowry, is starting to wear on LCF. Her only escape is her favorite charity. When she learns that a child is in trouble, she turns to the expert on that subject: tall, dark and supremely annoying barrister, Oliver Radford. Radford is a barrister renowned for his brilliance and complete disregard for politeness and polite society; ironic, now that he finds himself in line to inherit a dukedom. Lady Clara is utterly lovely, and may not be entirely bereft of brains, but she isn't part of his plans, until she somehow overwhelms his own infallible logic. When wedlock looms, all he can do is try not to lose his head over her, unlike every other sapskull in London. It's an inconvenient marriage by ordinary standards, but the ton's most adored heiress and most difficult bachelor are far from ordinary. Has England's least likely couple fallen victim to their own unruly desires? "Queen of love and laughter Chase returns with a laugh-out-loud novel destined for the keeper shelf. There's hardly time to breathe between giggles and guffaws...The result is perfection." -*Romantic Times*, TOP PICK "One of the finest romance authors of all time." -Julia Quinn "Wickedly witty, warm, and engaging." -Stephanie Laurens In this witty, sensual, poignant tale, New York Times bestselling author Suzanne Brockmann explores destiny, deception, and that steamy tipping point between deep friendship and romantic love. Photographer Clint McCade was a rugged free spirit with the perfect life, until he realized something vital was missing—Sandy Kirk. Since grade school, Sandy had been Clint's best friend and closest confidante. She was smart, beautiful, shy—and clueless about her power over men. But when Clint finally seeks her out to declare his love, he finds she's fallen for another man. Sandy knew she was a lot of things to Clint—except what she'd always longed to be: the woman he loved. So it comes as no surprise when he encourages her pursuit of another, even offering to coach her in the art of seduction. But soon the friends find themselves

engaged in a series of crossed signals, mixed messages, and unbearably titillating close encounters that prove only one thing is certain: body language doesn't lie. From the Paperback edition. "Wideranging survey...carefully traces Hollywood's treatment of the female body through the decades ...Plot summaries of individual films, some of them quite disturbing, and brief analyses add depth to the discussion. ...A timely selection for film and popular culture collections."—Booklist From the first, brief moving images of female nudes in the 1880s to the present, the motion picture camera made the female body a battleground in what we now call the culture wars. Churchmen feared the excitation of male lust; feminists decried the idealization of a body type that devalued the majority of women. This history of Hollywood's treatment of women's bodies traces the full span of the motion picture era. Primitive peepshow images of burlesque dancers gave way to the "artistic" nudity of the 1910s when model Audrey Munson and swimmer Annette Kellerman contended for the title of American Venus. Clara Bow personified the qualified sexual freedom of the 1920s flapper. Jean Harlow, Mae West and the scantily clad chorus girls of the early 1930s provoked the Legion of Decency to demand the creation of a Production Code Administration that turned saucy Betty Boop into a housewife. Things loosened up during World War II when Betty Grable and Rita Hayworth ruled the screen. The postwar years saw the blonde bombshells and "mammary madness" of the 1950s while the 1960's brought bikini-clad sex kittens. With the replacement of the Production Code by a ratings system in 1968, nudity and sex scenes proliferated in the R-rated movies of the 1970s and 1980s. Recent movies, often directed by women, have pointed the way toward a more egalitarian future. Finally, the #MeToo movement and the fall of Harvey Weinstein have forced the industry to confront its own sexism. Each chapter of this book situates movies, famous and obscure, into the context of changes in the movie industry and the larger society. Q: Do Gentlemen Really Prefer Blondes? A: Marilyn Monroe, Scarlet Johansson and Gwyneth Paltrow would be happy to know that they do. During the Ice Age, when even cavemen were in short supply, the blonde woman really did get her man - simply

because her light coloured hair made her stand out. Plus scientists have recently discovered that natural blondes have higher oestrogen levels. In short, golden (preferably long) hair shouts : 'I am young, sexy - and fertile' to every member of the male species within a few miles. Q: When's the best time to seduce my man? A: Your other half will definitely get more possessive and more attracted to you when you're ovulating and at your most fertile. You'll spend time on your make-up and choose next day's outfit before you go to bed. Your lips will be fuller, and your skin will be radiant because of the high levels of oestrogen being pumped through your blood. But don't get carried away by how sexy you feel. You are also more likely to be unfaithful during this period and your boyfriend is also likely to run away with another equally fertile member of the female species. Q: How do I get him to change his wild lifestyle? A: Get pregnant. Shocking but true. Fathers have lower testosterone levels than single men which means that they are more easy-going and less confrontational, they take fewer life threatening risks, and they are far less likely to have an affair with the leggier, skinnier blonde from the office. Chad Eastham, with his typical wit and wisdom for teens, brings much sought after advice on girls' favorite topics including dating, love, friendship, and other important stuff. Chad shines some much-needed light on these major issues for teens. Rather than let their feelings navigate them blindly through their tumultuous adolescence, Chad offers clarity, some surprising revelations, and answers to some of their biggest questions: How do I know who to date? When should I start dating? How should I start dating? Is this really love? And, Why do guys I like just want to be friends? Packed with humor that adds to the sound advice, this book will help teens make better decisions, have healthier relationships, and be more prepared for their futures. Just a few things girls will learn include: Five things you need to know about love; Eight dumb dating things even smart people do; Ten reasons why teens are unhappy; and Ten things happy teens do. Any teen can live a happier, healthier life: they just need to hear The Truth. Meets national education standards. She never wanted marriage... When a friend is forced to consider a marriage of convenience, Lady Amelia Staunton is determined

to rescue her. But her plans trap her in an illicit seduction, and Amelia must marry him herself. Malcolm's all-consuming kisses and devilish humor might make up for her lost freedom, but she believes he will force her to abandon the Gothic romances she yearns to write. Since she can't escape him, she must distract him from her secret... He isn't looking for love... A powerful autocrat with a well-hidden rebellious streak, Malcolm MacCabe doesn't need another beautiful mistress - he needs an obedient wife. Obedience is not one of Amelia's virtues. But he's too enthralled by her wit and passion to let her go - even if it means risking the political reputation he is building to save his clan. Their hearts can't survive the scandal... Despite their intentions, every wicked embrace binds them together. But as their conflicting desires combust into insatiable hunger and unavoidable ruin, they must decide whether to pursue their personal destinies alone - or fight for the love that could destroy them both. This collection looks from a variety of angles at the human body as it resists the determinations of gender, sexuality, socialisation and history. Ranging from classical hermaphrodites, Bruegel's blind faces and Weimar transgender surgery, via *Gentlemen Prefer Blondes*, state-socialist sport and Proust, to Barbie, Lari Pittman, *American Psycho*, IVF and video dance, the sixteen essays question the relationship between politics, culture and desire. This richly illustrated book also features the original work of two young photographers and a theatre director. *Reducing Bodies: Mass Culture and the Female Figure in Postwar America* explores the ways in which women in the years following World War II refashioned their bodies—through reducing diets, exercise, and plastic surgery—and asks what insights these changing beauty standards can offer into gender dynamics in postwar America. Drawing on novel and untapped sources, including insurance industry records, this engaging study considers questions of gender, health, and race and provides historical context for the emergence of fat studies and contemporary conversations of the "obesity epidemic." Bathing beauty Esther Williams, bombshell Jane Russell, exotic Carmen Miranda, chanteuse Lena Horne, and talk-show fixture Zsa Zsa Gabor are rarely hailed as great actors or as naturalistic performers. Those terms of

praise are given to male stars like Marlon Brando and James Dean, whose gritty dramas are seen as a departure from the glossy spectacles in which these stars appeared. Like *A Natural Woman* challenges those assumptions, revealing the skill and training that went into the work of these five actresses, who employed naturalistic performance techniques, both onscreen and off. Bringing a fresh perspective to film history through the lens of performance studies, Kirsten Pullen explores the ways in which these actresses, who always appeared to be “playing themselves,” responded to the naturalist notion that actors should create authentic characters by drawing from their own lives. At the same time, she examines how Hollywood presented these female stars as sex objects, focusing on their spectacular bodies at the expense of believable characterization or narratives. Pullen not only helps us appreciate what talented actresses these five women actually were, but also reveals how they sought to express themselves and maintain agency, even while meeting the demands of their directors, studios, families, and fans to perform certain feminine roles. Drawing from a rich collection of classic films, publicity materials, and studio archives, *Like a Natural Woman* lets us take a new look at both Hollywood acting techniques and the performance of femininity itself. How long does it take to decide if a person is hot? Is your lover more likely to get you pregnant than your husband? Can men tell when a woman is fertile? If you’ve ever wondered how scientists measure love—or whether men really prefer blondes over brunettes—this smart, sexy book provides real answers to these and many other questions about our most baffling dating and mating behaviors. Based on the latest research in biology, evolutionary psychology, neuroscience, and cognitive science, *Do Gentlemen Really Prefer Blondes?* dares to explain the science behind sex—and opens a fascinating window on the intriguing phenomenon of love and attraction. Covering the areas of bodies, brains, and behavior, this eye-opening guide reveals the genetic, hormonal, and psychological secrets behind what makes us tick sexually. For example, do you know why a man’s body chemistry and behavior change when he’s in a committed relationship? And why, when he becomes a daddy, his testosterone level

seems to plummet? And did you know... • When a couple first fall in love, their brains are indistinguishable from those of the clinically insane • You can tell a lot about a person's sexual chemistry just by looking at his or her hands • Your genes influence whose body odors you prefer • Being around breast-feeding women may increase a woman's sex drive Viewed through the lens of science and instinct, your love life might be seen in a completely different way. Do Gentlemen Really Prefer Blondes? provides both an in-depth exploration into our sexual psyches—and fresh advice for men and women who want to discover the secrets of successful relationships. Jena Pincott writes about the quirky, under-the-radar side of science and, while pregnant, found herself wondering how her baby's gestation might tinker with her body - and how her body was shaping the future development of her unborn child. She started to ask questions that her doctors couldn't always answer and uncovered unexpected answers in scientific journals. Why do thinner women have more daughters? What do fetuses actually learn when they eavesdrop? How does Grandma's diet affect her unborn grandchild? Drawing on her scientific background Jena Pincott writes about the hidden science of pregnancy. Here is a fascinating supplement to the typical maternity guide, delving into biology, neuroscience, evolutionary psychology and epigenetics, Do Chocolate Lovers Have Sweeter Babies gives a deeper understanding to what is physically, and psychologically, happening to a woman during pregnancy. Where does the maternal instinct come from? Does stress sharpen your baby's mind - or dull it? What mind control chemicals are in breast milk, sweat and tears? It will satisfy every pregnant woman's curiosity about life's most mysterious process through the newest, most interesting and, sometimes, controversial discoveries being made by science. Read Candace Havens's posts on the Penguin Blog. Second in the paranormal series featuring the Caruthers sisters, party girls who save the world-between cocktails. Alex Caruthers is a sassy socialite who knows when it's time to turn in her dancing shoes and kick some serious dragon booty. But when Ginjin-the dragon warrior who's tried to kill her numerous times-chooses her as his mate, Alex finds herself in a situation that's too hot to handle. For help she turns to Jake,

head of Caruthers security-and a total hottie in a suit-and asks him to pose as her boyfriend. Their relationship might be fake, but Alex can't deny that one touch from Jake makes her burn hotter than any dragon could. Q: Do Gentlemen Really Prefer Blondes? A: Marilyn Monroe, Scarlet Johansson and Gwyneth Paltrow would be happy to know that they do. During the Ice Age, when even cavemen were in short supply, the blonde woman really did get her man - simply because her light coloured hair made her stand out. Plus scientists have recently discovered that natural blondes have higher oestrogen levels. In short, golden (preferably long) hair shouts : 'I am young, sexy - and fertile' to every member of the male species within a few miles. Q: When s the best time to seduce my man? A: Your other half will definitely get more possessive and more attracted to you when you re ovulating and at your most fertile. You ll spend time on your make-up and choose next day s outfit before you go to bed. Your lips will be fuller, and your skin will be radiant because of the high levels of oestrogen being pumped through your blood. But don t get carried away by how sexy you feel. You are also more likely to be unfaithful during this period and your boyfriend is also likely to run away with another equally fertile member of the female species. Q: How do I get him to change his wild lifestyle? A: Get pregnant. Shocking but true. Fathers have lower testosterone levels than single men which means that they are more easy-going and less confrontational, they take fewer life threatening risks, and they are far less likely to have an affair with the leggier, skinnier blonde from the office.
