Unlocking the Magic of Facilitation Sep 27 2020 Have you ever been in a training and marveled at how quickly the time flew by? Genuinely enjoyed a meeting you were expecting to dread? Learned something powerful about a topic you thought wouldn't engage you? Experienced an intimate, vulnerable, transformative moment with a group of total strangers? Then you've witnessed the magic of facilitation. Like all magic tricks - though they seem to defy reason when you're spectating for the first time - once the secrets of facilitation are unveiled to you, you'll look back with a bland obviousness. Of course that's how it's done. In this book, co-authors and social justice facilitators Sam Killermann and Meg Bolger teach you how to perform the favorite tricks they keep up their sleeve. It's the learning they've accumulated from thousands of hours of facilitating, debriefing, challenging, and failing; it's the lessons from their mentors, channeled through their experience; it's the magician's secrets, revealed to the public, because it's about time folks have the privilege of looking behind the curtain of facilitation and thinking of course that's how it's done. This book is highlights 11 key concepts every facilitator should know, that most facilitators don't even know they should know. They are sometimes-tiny things that show up huge in facilitation. It's a book for facilitators of all stripes, goals, backgrounds, and settings - and the digestible, enjoyable, actionable lessons would benefit anyone who is responsible for engaging a group of people in learning.

In Tattoo Machine, Johnson illuminates a world where art, drama, and commerce come together in highly entertaining theater. Multi-Disciplinary Approaches to Romany Studies Dec 19 2019 *A collection of essays on a wide range of aspects of the Roma communities, cultures, social and political conditions across Europe. The scholarly field of Romany studies is trapped by the history of Roma in a unique and peculiar position in Europe. The investigation of Roma was in the past marginal to academic concerns because most of its practitioners were amateur folklorists interested in treating the Roma as paragons of a lost world and not as citizens of modern nation-states. Today the field is hemmed in by two different power fields: the emotionally understandable, though intellectually debilitating, concern to turn the plight of the Roma into a matter of human rights and the difficulty that academics experience in dealing with people who are not*

Enamels of Limoges Aug 27 2020 Treasuries of France, and other sources. The works of Limoges were created for important ecclesiastical and royal patrons. The wealth of enameling preserved from the Treasury of the abbey of Grandmont, just outside Limoges, is due chiefly to the Plantagenet patronage of Henry II and his queen, Eleanor of Aquitaine. Enamels created during their reign resonate with the elegant style of the court, and the dramatic history of Henry's monarchy is evoked by such works as the.

Inside Rubik's Cube and Beyond May 24 2020 On January 30, 1975 Ernő Rubik jr., professor of architecture and design in Budapest, was granted the Hungarian patent number 170062 for a "terbeli logikai játék"--A game of spatial logic. Between 1978 and March 1981 this object-Btlyvos Kocka in Hungary, der Magische Würfel or Zauberwürfel in Germany, Le Cube Hongrois in France and the Magic Cube or Rubik's Cube in Great Britain and the USA-has sold more than ten million copies. And they were not merely sold! A highly contagious "twist mania" has been spreading throughout families, offices and waiting rooms. Many classrooms sound as if an army of mice were hard at work behind the desks. What is so fascinating about this cube, which competes with Hungarian salami and the famous Tokaj wine in the currency-winning export market? For one thing, it is an amazing technical tool. How does it work? Moreover, the contrast between its innocent, innocuous appearance and the hidden difficulty of its solution offers a serious challenge to all puzzle fans, but especially to those

mathematicians who are professionally concerned with logical deduction

Advance readers of WINNER TAKES ALL have said that "Masters and slaves pop off the pages like heroic figures from the leather underworld" (Jay Starre) in "lip-smackingly kinky tales" (Jeff Mann) featuring "beautiful language, touching characterization, poignant plotting, and a full-bodied eroticism" (M. Christian, in his Foreword). The stunning original cover images are by Thom Magister, himself a Perfectbound Press author (THE SLAVE JOURNALS AND OTHER TALES OF THE OLD GUARD).
