Published by Good Press. Good Press publishes

a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format. Chained to the hold of a slave ship bound for the Caribbean, a terrified young girl's only comfort is the voice of a woman she can't see. She is told 'Anansi stories', tales of the crafty spider whose cunning and humorous tricks give the girl the resilience and wit she needs to survive. Moving and funny at the same time, Anansi carefully juxtaposes the savagery of the slave trade with the exuberance of traditional story telling.

SuperScripts are tried and tested plays that will appeal to 11 - 16 year olds. Mostly written by professional playwrights and performed in public to popular acclaim, these plays are ideal for the English classroom and drama studio and are accompanied by an extensive range of original activities. The Greek word 'poesis' means bringing into existence expressions, which did not exist before. 'Choreographing

Calligraphy' is a collection of original poetry by Katrina Plumb. She works with society's outcasts, creating an environment in which they can explore their emotions for the first time, and leave a verbal record of their experience. Double acrostics are a form, obliging the poet to combine care and curiosity conscientiously, and Katrina employs this framework to convey a wide variety of emotions, forever choreographing transformation in style. Katrina Plumb works with recovering addicts as a Creative Writing Mentor, whilst studying at Bristol University, en route to becoming a Poetry Therapist. She enjoys bringing into existence expressions that were not here before and has had a variegated life from which to draw. Double acrostics have held her fascination for the last few months, and Choreographing Transformation is a lifetime endeavor. POSITIVE CHILD GUIDANCE, Eighth Edition, is ideal for guidance, behavior management and discipline, and classroom management courses in an early childhood education curriculum. This practical book outlines workable steps for creating a cooperative, respectful community of children and adults with special emphasis on sensitivity to cultural needs, cultural differences, and developmentally appropriate

practice. Students will learn a range of practical, effective, and flexible guidance strategies based on principles of straightforward communication and assertiveness. This new edition includes critical advances in research and addresses the cultural trends that are changing the way babies and children are cared for today.

Since 1969, Philip Kotler's marketing text books have been read as the marketing gospel, as he has provided incisive and valuable advice on how to create, win and dominate markets. In KOTLER ON MARKETING, he has combined the expertise of his bestselling textbooks and world renowned seminars into this practical all-in-one book, covering everything there is to know about marketing. In a clear, straightforward style, Kotler covers every area of marketing from assessing what customers want and need in order to build brand equity, to creating loyal long-term customers. For business executives everywhere, KOTLER ON**

MARKETING will become the outstanding work in the field. The secret of Kotler's success is in the readability, clarity, logic and precision of his prose, which derives from his vigorous scientific training in economics, mathematics and the behavioural sciences. Each point and chapter is plotted sequentially to build, block by block, on the strategic foundation and tactical superstructure of the book. Meet Kelly Palamino, a successful dishwasher and failed husband described by People as "the Lone Ranger in love, riding out the rough patches on a Thorazine habit." When Kelly's wife leaves him for his best friend, he becomes color-blind and left-handed, and his toilet starts to talk. But Kelly really sails off the edge when he spies a beautiful bride just before her wedding. All Kelly has to do is convince Collette to dump her husband and take a chance on a man she thinks is crazy-before her in-laws and the law can put him away. How do we get you moving? By placing you-the customer-in the driver's seat. "Marketing" introduces the leading marketing thinking on how "customer value" is the driving force behind every marketing strategy. Web links and learning exercises appear in each chapter. An Instructor's CD-ROM includes a testbank and PowerPoint slides. Common misconceptions about Japan begin with the notion that it is a "small" country (it's actually larger than Great Britain, Germany or Italy) and end with pronouncements that the Japanese think differently and have different values-they do things differently because that's the way they are. Steven Reed takes on

the task of demystifying Japanese culture and behavior. Through examples that are familiar to an American audience and his own personal encounters with the Japanese, he argues that the apparent oddity of Japanese behavior flows quite naturally from certain objective conditions that are different from those in the United States. Mystical allegations about national character are less useful for understanding a foreign culture than a close look at specific situations and conditions. Two aspects of the Japanese economy have particularly baffled Americans: that Japanese workers have “permanent employment” and that the Japanese government cooperates with big business. Reed explains these phenomena in common sense terms. He shows how they developed historically, why they continue, and why they helped produce economic growth. He concludes that these practices are not as different from what happens in the United States as they may appear. Offers a complete grounding in the principles and techniques of modern electronics. Designed to provide even beginning students with the knowledge and skills necessary for building useful and interesting circuits either in a laboratory situation or on their own. Concentrates on techniques and devices currently used in

modern equipment and special attention is paid to the basic ideas and techniques used with important types of circuits. A substantial portion of the book is devoted to explaining the vocabulary and information presented in data sheets for these circuits. By instructing students in these techniques and familiarizing them with the ins-and-outs of electronic literature, it provides a sound introduction to the field and a means of keeping up with its extremely rapid changes. This second edition has been updated by include MyPyramid and the 2005 Dietary Guidelines as well as coverage of material such as digestion, metabolism, chemistry and life cycle nutrition.
