Touring Car Racing Aug 26 2022 Touring Car Racing, a feast of nostalgia, celebrates the 60-year heritage of the British Touring Car Championship. From the era of Mini Coopers and Lotus Cortinas to the Vauxhall Astras and Honda Civics of recent years, all the highlights of Britain ' s ever-spectacular touring car scene are captured in a year-by-year visual extravaganza with over 600 photos and expert commentary. Compiled by long-time touring car journalist Matt James, the book has a chapter for each year featuring a summary of the season, 10 photos showing all the top cars and drivers in action, key statistics and a profile of the champion driver. Anyone who has ever enjoyed touring car racing as a participant, spectator or television viewer will treasure this book. The 1950s. The British Saloon Car Championship was inaugurated in 1958 and from the start it was super-competitive, ending in a tie that was resolved by a shoot-out in favour of Jack Sears. The 1960s. There were three Mini champions but mainly this was a Ford era, epitomised by Lotus Cortinas (with Jim Clark ever spectacular) and big Falcons, Galaxies and Mustangs from America. The 1970s. Smaller classes came to the fore in this decade, with three drivers sharing seven titles — Bill McGovern took three in Sunbeam Imps while two apiece went to Bernard Unett (Chrysler Avenger GT) and Richard Longman (Mini 1275GT). The 1980s. Three drivers also bestrode this decade but in a wider range of cars,

including Mazda RX-7, Alfa Romeo GTV, Rover Vitesse and Ford Sierra XR4i; Win Percy and Andy Rouse each took three titles, Chris Hodgetts two. The 1990s. Overseas drivers arrived in force to mix it with home-grown stars during the highly competitive Super Touring years, the decade's champions including Joachim Winkelhock (BMW 318is), Frank Biela (Audi A4 quattro), Alain Menu (Renault Laguna), Rickard Rydell (Volvo S40) and Laurent Aïello (Nissan Primera). The 2000s. Vauxhalls were the star cars, taking six titles, while the decade brought three double champions in the form of James Thompson (Vauxhall Astra), Matt Neal (Honda Integra) and Fabrizio Giovanardi (Vauxhall Vectra VXR). The 2010s. Yet more variety and brilliant racing has characterised the current decade, with Gordon Shedden becoming the winningest driver with three titles in Honda Civics.

The Stainless Steel Carrot Jan 07 2021 In 1970, Sylvia Wilkinson was a writer in the category known as 'young Southern Woman Novelist'. Alfa Romeo TZ-TZ2 Dec 18 2021 Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the

Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.

Racing Camaros May 23 2022 Chevrolet created the Camaro in response to the runaway sales success of the Ford Mustang, the first pony car. The Mustang went on sale in April 1964, and by August that same year, General Motors launched an intensive program to bring its own pony car to market. In September 1966, the Camaro went on sale. Chevrolet wanted the Camaro to be better than the Mustang in every area, including style, ride-quality, and performance. To that end, with the Mustang having already achieved so much racing success, Chevrolet wanted to beat it on the track also. Racing Camaros: An International Photographic History 1966 - 1984 is a photographic celebration of road racing Camaros throughout the world. It focuses on production-based cars, rather than the heavily modified tube-frame silhouette machines that began appearing in the late 1970s. Included are images of big-budget factory-supported cars competing in the Trans-Am series, right through to low-buck independents, and cars competing throughout the world. For the first time, the international road racing representation of the Camaro is featured in a book, which includes countless photos that have never been published. Technical detail is provided throughout, from concept and design, right through its racing career, and the challenges and developments that took place to make it a winner. Only period images have been used. This is a true photographic history depicting the global popularity of the Chevrolet Camaro as a road racing car.

BMW E30 - 3 Series Restoration Bible Jun 23 2022 It is amazing to think that time has passed by and that the second BMW "3 Series" has achieved such status that it warrants this special book on its 21st anniversary. Maybe it is due to the sheer longevity of its design, its ability to satisfy the keen driver or its iconic status - but, whatever it is, there is no doubt that the E30 is one car from the past that will stay with us into the future. It is a pending classic and prices for well kept models have started to escalate; furthermore, there is a core of well cared for cars out there requiring basic attention by their dedicated owners. As a result, there has never been a better time for a book of this sort. By focusing on the common faults which crop up repeatedly and by giving detailed, simple instructions regarding repairs, this book will be uniquely invaluable for owners who wish to try their hand at their own maintenance, especially those who may previously have been prevented from doing so by a lack of technical know-how or specific knowledge.

Alfa Romeo 916 GTV and Spider Nov 16 2021 Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series. Will appeal to Alfa Romeo and automotive enthusiasts. The history and design process are examined along with an in-depth guide to each of the model variants produced. The cars' current position in the classic car market is considered. Superbly illustrated with 240 colour photographs. Robert Foskett is a life-long Italian car enthusiast with a special interest in Alfa Romeo.
