There is no better way to enjoy wine than at its source, and this unique slipcase set brings together two definitive guides to the great wines of the world, from their birthplace in Europe to America's blossoming regional viticulture. "Wine Country Europe" is a dream tour of the Old World's most celebrated regions, from the famed areas of France, Italy, and Portugal to lesser-known discoveries in Austria and Hungary. And "Wine Country USA" will inspire you to explore some of the amazing wineries that have sprung up across the country. Each book highlights the best places to tour vineyards, taste wines, buy bottles to take home, and see local historic sights along the way, and includes an invaluable "Labels to Look For" section of extensive tasting notes. Beautifully illustrated with hundreds of color photographs and written by experts in the field, the Wine Country books are indispensable guides to the world's most inviting wine journeys. Over the course of the long 18th century, many of England's grandest country houses became known for displaying noteworthy architecture and design, large collections of sculptures and paintings, and expansive landscape gardens and parks. Although these houses continued to function as residences and spaces of elite retreat, they had powerful public identities: increasingly accessible to tourists and extensively described by travel writers, they began to be celebrated as sites of great importance to national culture. This book examines how these identities emerged, repositioning the importance of country houses in 18th-century Britain and exploring what it took to turn them into tourist attractions. Drawing on travel books, guidebooks, and dozens of tourists' diaries and letters, it explores what it meant to tour country houses such as Blenheim Palace, Chatsworth, Wilton, Kedleston and Burghley in the tumultuous 1700s. It also questions the legacies of these early tourists: both as a critical cultural practice in the 18th century and an extraordinary and controversial influence in British culture today, country-house tourism is a phenomenon that demands investigation. When Toby gets distracted during a tour in Washington, D.C., Leo the paintbrush teaches him about the importance of learning about our country and respecting all countries. Together, Toby and Leo
