A series of fiction and non-fiction books introducing key social, emotional and academic skills to help prepare children for Reception and support their journey through Early Years, KS1 and beyond. The books in this series will cover topics that children of today can relate to, encouraging an interest in the world around the child and supporting familiarisation of specific subjects. The leaves turn red, brown, and orange, then drift down from the trees. It's time to go apple picking and on hayrides at the county fair. Fall is finally here! With soft, colourful art, adorable children, and seasonal outdoor scenes, Let It Fall celebrates the beauty of autumn. This busy board book with tabs gets little ones thinking, talking, and learning new words about the seasons! Let's enjoy the different seasons and find out what makes each one special. What's the best thing about summer? What do farmers harvest in the fall? From finding out which baby animals are born in spring to experiencing all the outdoor fun of a winter wonderland, babies and toddlers will love learning all about the things you can see and do in each season. Each section of this engaging and educational book is dedicated to different types of weather, wildlife, and activities that can occur throughout the year, such as spring flowers, camping in the summertime, and autumn weather. Bright, colorful photographs illustrate each word, with easy

to read labels so your little one can sound out the words with you. The interactive book encourages children to imagine a summer holiday, choose their favorite things, or count the different winter animals on the page. This delivers a rounded early learning reading experience, and helps your little one develop early speaking, listening, and observation skills. The book has strong board pages made especially for young children. The chunky tabs along the top and side are easy to grab to help with early motor control. Preschoolers will quickly recognize the picture on the tab which will take them straight to the page with their favorite season. Outdoor play experiences have a crucial role in young children's learning and development and should be a daily part of their lives. Planning and facilitating rich play and learning opportunities outside can, however, be challenging, especially in difficult weather conditions. *Outdoor Learning through the Seasons* provides detailed guidance on how we can encourage young children to engage with the natural world throughout the year. Using the four seasons as a framework, the book aims to help all adults to feel confident about taking children outside everyday and developing their awareness of the world around them. It suggests a wide range of experiences and looks at the various ways in which children can interact with the environment to further their learning and development. There are ideas to brighten grey winter days as well as summer sunshine, snow, wind and rain. Features include: reference to recent research on the significance of outdoor play in early childhood; guidance on how to encourage effective learning outdoors practical tips to offer

high quality provision in layout, design and planting; suggestions for planning outdoor experiences in the seven areas of learning in line with with the revised Early Years Foundation Stage; advice on working with parents and the role of adults; ideas for all seasons, weather conditions and working with the four elements: earth, air, water and fire; useful reference lists of further resources including stories, poems and websites; an appendix of seasonal recipes. Including a full colour photo plate section to illustrate good practice, this practical book is essential reading for all those looking to provide rich and stimulating outdoor play provision for children in early years settings on a daily basis. ‘Accompanied by NASA photographs and Dorros’s colorful, lively drawings, the text explains the Earth’s rotation in clear and simple terms. An experiment using a lamp as the ‘sun’ further clarifies the principles introduced.’ —BL. Trying to fly a kite on a beautiful breezy day, Charlie Brown is dismayed when his kites are caught by the Kite-Eating Tree until he receives help from his fellow Peanuts friends. Original. Simultaneous eBook. Describes how sunshine and the tilt of the earth's axis are responsible for the changing seasons. A bibliography that suggests books for beginner readers is accompanied by subject, title, illustrator, readability level, and series indexes Seren can't wait to put on her snow boots and build a snowgirl. She just needs to wait for the right season. Spring, summer, autumn and winter bring lots of different types of weather. What is your favourite type of weather? Download the full eBook and explore supporting teaching materials at

www.twinkl.com/originals Join Twinkl Book Club to receive printed story books every half-term at www.twinkl.co.uk/book-club (UK only). When I was just a little girl, I began to hear about Jesus. I learned wonderful songs of how he walks with me and talks with me along life's narrow way. And how to Trust and Obey for there is no other way. And a little light that was 'mine' I was supposed to let it shine. As I began to grow up I had many questions in my heart. I loved Jesus there was no question of that. But I never really understood how He could walk with me and talk with me, or what it meant to truly trust and obey. And I was not sure at all about having a light that would shine. God used candy to help teach me the answers to many of these questions. He became real to me through the years of seeking Him, in how to share Him with others, so they could truly know Him and experience Him, without pretence. I invite you into the world of A Candy Ministry where candy becomes the focal point. (Candy is a non-threatening (focal point/subject) to begin sharing the gospel of Jesus Christ with others). Where candy is coded not coated so it melts in your heart not your hands. You will experience messages that will speak to the nature of the heart of the child inside of you, no matter your age. This touch, taste, and feel ministry is brought to you with the hope that you will have a better understanding of God and His love for you. I pray as you read this book that you will experience life changes. We experience trials of many kinds and need support and encouragement as we go through them. Candy messages offer a new way to look at things based on God's word. Some

dinosaurs were big. How big? As long as four school buses in a row, as heavy as sixteen elephants. Some dinosaurs were small. How small? Read and find out! In this simple rhyming story, three children share the activities of winter, until the first signs of spring appear. Describes how sunshine and the tilt of the earth's axis are responsible for the changing seasons. Recommends a wide range of children's fiction and nonfiction books on subject including nature, adventure, friendship, family life, and the arts. Learn all about the seasons in this engaging science reader! The seasons go in a cycle each year from winter to spring to summer to autumn. The cycle always continues! Vibrant images pair with easy-to-read text to keep students engaged from cover to cover. This reader also includes instructions for an engaging science activity and practice problems to further students' understanding of the seasons in a creative way. A helpful glossary and index are also included for additional support. This 6-Pack includes six copies of this Level J title and a lesson plan that specifically supports Guided Reading instruction. Water is always flowing, from a brook to a stream, to a river to the ocean. Read and find out more about how water shapes the earth and why it is important to keep our water clean. These standards-based, easy-to-follow collaborative lessons will not only build a strong bridge between the school library and the classroom, but will help educators help students improve their skills and scores. Written for elementary school library media specialists and their K-2 teaching partners, this book coaches readers on methods to meet student literacy standards. In this balanced

literacy age, collaboration is a perfect means to address national, state, and local literacy standards. Simple text and bold, beautiful paper sculpture convey the animal life, plant life, weather, colors, clothing, and feelings associated with the winter season. The earth is like a spaceship in orbit—it has everything on board that we need to survive: water, food, and air with oxygen. Unlike a space shuttle, Earth is able to renew its resources. Read and find out why Earth is the greatest spaceship to be aboard! Read and find out about people and animals use different kinds of sounds to communicate in this colorfully illustrated nonfiction picture book. Sounds are all around us. Clap your hands, snap your fingers: You're making sounds. With colorful illustrations from Anna Chernyshova and engaging text from Wendy Pfeffer, *Sounds All Around* is a fascinating look into how sound works. This is a clear and appealing science book for early elementary age kids, both at home and in the classroom. It includes a find out more section with additional and updated experiments, such as finding out how sound travels through water. Both the text and the artwork were vetted by Dr. Agnieszka Roginska, Professor of Music Technology at NYU. This is a Level 1 Let's-Read-and-Find-Out, which means the book explores introductory concepts perfect for children in the primary grades. The 100+ titles in this leading nonfiction series are: hands-on and visual acclaimed and trusted great for classrooms Top 10 reasons to love LRFOS: Entertain and educate at the same time Have appealing, child-centered topics Developmentally appropriate for emerging readers Focused; answering

questions instead of using survey approach Employ engaging picture book quality illustrations Use simple charts and graphics to improve visual literacy skills Feature hands-on activities to engage young scientists Meet national science education standards Written/illustrated by award-winning authors/illustrators & vetted by an expert in the field Over 130 titles in print, meeting a wide range of kids' scientific interests Books in this series support the Common Core Learning Standards, Next Generation Science Standards, and the Science, Technology, Engineering, and Math (STEM) standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series. Martin Luther King, Jr. grew up in the South and learned about racism. He became a leader and taught the world about equality. Follow his story and learn why we still celebrate a man and his dream today. -p.4 of cover. When it's not windy, it can be easy to forget about air. But air is everywhere—it fills your house, your car, and even your empty milk glass. In fact, a regular room holds about 75 pounds of it! This Level 1 book, reillustrated with John O'Brien's clever, eye-catching illustrations, tells you how to discover the air that's all around you. One girl must compete to become the next empress while keeping her monstrous identity a secret in this Ancient Japan-inspired standalone fantasy. An introduction to marine food webs and habitats joins the humpback whales in their ocean journey as they migrate through seasonal changes. This action-packed seek-and-find book takes young readers on an outdoor

adventure through the changing months of the year. Each month is presented with a detailed, full-color scene with an exciting array of seasonal items to look for. Four novellas from Stephen King bound together by the changing of seasons, each taking on the theme of a journey with strikingly different tones and characters. This gripping collection begins with "Rita Hayworth and the Shawshank Redemption," in which an unjustly imprisoned convict seeks a strange and startling revenge--the basis for the Best Picture Academy Award-nominee *The Shawshank Redemption*. Next is "Apt Pupil," the inspiration for the film of the same name about top high school student Todd Bowden and his obsession with the dark and deadly past of an older man in town. In "The Body," four rambunctious young boys plunge through the facade of a small town and come face-to-face with life, death, and intimations of their own mortality. This novella became the movie *Stand By Me*. Finally, a disgraced woman is determined to triumph over death in "The Breathing Method."--Provided by publisher. Introduces children to summer with basic counting. How do we know it's winter? The air is cold and snow falls. Animals look for food. Many plants turn brown, but evergreens stay green. This book shows young readers how to recognise the changes that happen in winter. Read and find out about how animals cope with winter in this colorfully illustrated nonfiction picture book. This is a clear and appealing book for early elementary age kids, both at home and in the classroom. Introduce kids to basic science ideas as part of discussions about the seasons and animals. Have you ever

seen a butterfly in the snow? Probably not. Butterflies can't survive cold weather, so when winter comes, many butterflies fly to warmer places. They migrate. Woodchucks don't like cold weather either, but they don't migrate; they hibernate. Woodchucks sleep in their dens all winter long. How do these and other animals handle the cold and snow of winter? Read and find out in the proven winner *Animals in Winter!* This is a Level 1 Let's-Read-and-Find-Out, which means the book explores introductory concepts perfect for children in the primary grades. The 100+ titles in this leading nonfiction series are: hands-on and visual acclaimed and trusted great for classrooms Top 10 reasons to love LRFOs: Entertain and educate at the same time Have appealing, child-centered topics Developmentally appropriate for emerging readers Focused; answering questions instead of using survey approach Employ engaging picture book quality illustrations Use simple charts and graphics to improve visual literacy skills Feature hands-on activities to engage young scientists Meet national science education standards Written/illustrated by award-winning authors/illustrators & vetted by an expert in the field Over 130 titles in print, meeting a wide range of kids' scientific interests Books in this series support the Common Core Learning Standards, Next Generation Science Standards, and the Science, Technology, Engineering, and Math (STEM) standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.
