X Platoon Oct 15 2019 For three decades one of the most secretive units in the British military has been a mystery force known as X Platoon. Officially there was no X Platoon. The forty men in its elite

number were specially selected from across the Armed Forces, at which point they simply ceased to exist. X Platoon had no budget, no weaponry, no vehicles and no kit - apart from what its men could beg, borrow or steal from other military units. For the first time a highly decorated veteran of this specialised force - otherwise known as the Pathfinders - reveals its unique story. Steve Heaney became one of the youngest ever to pass Selection, the gruelling trial of elite forces, and was at the cutting edge of X Platoon operations - serving on anti-narcotics operations in the Central American jungles, on missions hunting war criminals in the Balkans, and being sent to spy on and wage war against the Russians. The first non-officer in the unit's history to be awarded the Military Cross, Steve Heaney reveals the extraordinary work undertaken by this secret band of brothers.

At Close Quarters: SOE Close Combat Pistol Instructor Colonel Hector Grant-Taylor Oct 19 2022 The Special Operations Executive (SOE) was the paramount Allied sabotage force of the Second World War. Its job - in Churchill's words - was to "set Europe ablaze" through the use of sabotage,

insurrection and assassination. One of its "shining Stars" and "legends" was the close-combat pistol instructor, Colonel Hector Grant-Taylor. Grant-Taylor taught the commandos, secret agents and irregular soldiers the art of how to kill at close quarters. He taught them how to be ruthless, lethal and covert, and yet his own life was itself a mystery worthy of a John Buchan thriller novel.

Misinformation, deception, bravery, murder, and ultimately redemption, all play a part in his story. At Close Quarters finally puts to rest the myths and legends that surrounded his life, and unravels the mysterious truth behind the enigma that was Colonel Hector Grant-Taylor!

Combat Focus Shooting Aug 05 2021 Praised by experts and students alike for his practical approach to intuitive shooting techniques, Pincus has brought his program into a skillfully written dialogue featuring sections including: Working with what the body does naturally, Background and Philosophy of Combat Focus Shooting, Combat (or Defensive) Accuracy, Combat Focus Range Drills, The Critical Incident Reload, Volume of Fire, and The Balance of Speed and Precision. Pincus' book covers the content and underlying principles of the revolutionary Combat Focus? Shooting Course in their entirety. Combat Focus? Shooting is the intuitive shooting program that is designed to work with what the body and mind do naturally during a dynamic critical incident. This program helps the shooter to learn the ?Balance Between Speed & Precision? and use either sighted or unsighted fire as appropriate to get combat-accurate hits efficiently during a lethal force encounter. Pincus' Combat Focus? Shooting program has been incorporated into law enforcement and military training programs across the country and has been taught to security and police officers, military special operations personnel and instructors from around the world. In addition to these armed professionals, hundreds of self-defense students and beginner shooters are taught how to be safer through more efficient shooting in the Combat Focus? courses every year, both at Valhalla Training Center and other locations.

FIREARMS INSTRUCTOR'S MANUAL Feb 23 2023 This manual has been written with the Law Enforcement Firearms Instructor in mind. It is an attempt to save the instructor time by furnishing already prepared outlines that cover most of the subject currently taught by and to law enforcement personnel. The purpose of the manual is twofold: First, it can be used by current firearms instructors as

a handy reference guide and also as a way of keeping all of the firearms outlines in one simple format. By preparing the manual in this fashion, all of an instructor's outlines are easily accessible should an instructor's class be challenged by the legal system. Secondly, this manual can be used as the text for firearms instructor initial certification classes. Once the new instructor completes the basic certification course, he or she will have a complete set of outlines that can be used for teaching their classes. The first four outlines in this manual (The Role of the Firearms Instructor, Safety Responsibilities, Record Keeping, and Discipline) are generally used during instructor development classes. The rest of the outlines, while also used in instructor development classes, are also appropriate for basic recruit classes as well as classes that are designed for in-service personnel. The Appendix contains material that can be used as class handouts or made into overheads for class presentations. Some of the courses can be used for general firearms qualification, while others are used for training a specific skill, such as linear and lateral movement or multiple attackers. The manual has been written to take the pain out of the "office work" part of being a firearms instructor and to give the instructor more time to teach.

Concealed Carry Class Jun 15 2022 Your Ultimate Resource for Practical Personal Protection
Concealed Carry Class: The ABCs of Self-Defense Tools & Tactics is a comprehensive guide to recognizing, avoiding and surviving violent confrontations. It covers everything from situational-awareness skills that can be honed to help keep you and your loved ones out of potentially dangerous scenarios; to the mental discipline it takes to carry a concealed weapon every day; to evaluating and selecting concealed-carry hardware, including handguns and calibers, holsters and clothing; to training drills you can use to become proficient with a handgun, and remain proficient through regular practice. Author Tom Givens has more than four decades of experience as a firearms instructor, has carried a gun professionally in one form or another for 50 years, and spent 25 years in various aspects of law enforcement and specialized security work, with stints in street patrol and investigations. Givens also owned and operated a firing range and training center for more than 18 years. During that time, he oversaw the firing of about 1.5 million handgun rounds each year, with all types of handguns. He trained about 2,500 students each year, including private citizens, security personnel and police officers, military police, intelligence units and Special Forces detachments. He has been involved in armed confrontations both as a police officer and as a private citizen, and has seen firsthand how decent people, with proper training, can fight back and overcome criminal attacks. Tom Givens calls on decades of firearms and law-enforcement experience to put together this practical collection of tips and tactics anyone can use for the safe, responsible and legal carrying of a concealed weapon.

Personal Protection Training Dec 21 2022 **Some Comments from Lens Students** I want you to know that in my many years of being a student, you easily rank as the best teacher I have ever had. Your skill and patience has made me infinitely more comfortable with my weapons and myself. The next class you teach, I'll be there in a heartbeat. I'm sure you don't have to be reminded of the multitude of people you have touched and the positive impact you have had on firearms training overall. Bob Patridge Len has taught me to effectively and safely use a handgun and rifle and for that I will always be grateful. I look forward to the time I spend once or twice a week under his instruction. Len has created a wide range of firearms training programs out of virtually nothing and trained a sizeable and

competent cadre of firearms instructors who, like me, greatly respects the man. He is engaged with his students and always approachable. Students who have shot much longer than me comment on his great depth of knowledge and ability to improve their shooting. He clearly loves to teach the material and his enthusiasm is contagious. He has a great sense of humor and makes his classes a lot of fun. But in spite of all of this the safety of his students is always his first concern. Dr. Noel Pillman, MD I am a retired police officer and a former police firearms instructor for over 20 years. I have been to numerous firearms training classes over the years but have not had any instructors more professional, knowledgeable, and dedicated to what they do than Len Breure. Maurice Merabella "Len was my first real 'tactical' instructor a few years ago. He is a thorough, safe, and well versed instructor. His teaching style is unique in a way that clearly conveys lessons and makes them easy to understand for experienced shooters and novices alike. Len brings a wealth of prior "been there, done that" experience to the table that's an asset to his teaching, and is rarely found in many of the new instructors that have come to the arena since most states have enacted concealed carry laws. I continue to train with a variety of tactical instructors, and am always amazed by how much of the information Len taught me is still the foundation upon which I build." Mike VanMeeteren "I have been fortunate enough to receive numerous training courses that were being taught by Len Breure. In my opinion, Len is one of the best in the business! It is very rewarding to be able to learn from someone who has the experience and knowledge to take tactical training to the next level." Jim Bryant I first meet Len while taking my Minnesota Concealed Carry Course in 2005. Since that time I have taken every course that Len teaches. In my opinion Len is the consummate professional, who teaches with passion and an incredible degree of knowledge. I would strongly urge anyone interested in personal protection to take Len's courses. Firearm Safety Certificate - Manual for California Firearms Dealers and DOJ Certified

Instructors Aug 25 2020 The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

Written by two trainers with decades of experience, this book explores those questions and others related to defensive pistol training.

T. A. P. S. Tactical Application of Practical Shooting Jan 18 2020 Recognize the void in your tactical training Train like you fight Maintain safety at all times Choose targets that force accountability Develop a series of standards Patrick McNamara spent twenty-two years in the United States Army in a myriad of special operations units. When he worked in the premier special missions unit, he became an impeccable marksman, shooting with accurate, lethal results and tactical effectiveness. McNamara has trained tactical applications of shooting to people of all levels of marksmanship, from varsity level soldiers, U.S. Secret Service agents and police officers who work the streets to civilians with little to no time behind the trigger. His military experience quickly taught him that there is more to tactical marksmanship than merely squeezing the trigger. Utilizing his years of experience, McNamara developed a training methodology that is safe, effective and combat relevant and encourages a continuous thought process. This methodology teaches how to maintain safety at all times and choose targets that force accountability, as well as provides courses covering several categories, including individual, collective, on line and standards. TAPS: Tactical Application of Practical Shooting: Recognize the void in your tactical training will increase the confidence and efficiency in your shooting by providing training tips and courses of fire to help you significantly improve your marksmanship. Utilize his tips and techniques and reap the benefits as you shoot.
