Having just emerged from a prolonged civil war and faced with the urgent tasks of establishing political stability and reinvigorating an economy in tatters, the Transitional Government of Ethiopia (1991-1995) had to set a new direction for the economic reconstruction and social rehabilitation of the warn-torn and poverty-ridden country. During the Transitional Period a spate of new policies and strategies defining the development priorities, goals and implementation instruments of the new regime led by the EPRDF was introduced. This work is a synthesis of various sectoral policies and an attempt to trace the genesis of the policies, highlight the continuities, significant departures and other salient features. Each of the reviews in this digest briefly analyses the critical elements of the policies, identifies major gaps in the conceptualisation of the policy as well as the achievements registered and the challenges encountered in its implementation. The authors also try to identify the outstanding issues to be addressed by policymakers and suggest remedies. The policy reviews have been grouped into three parts and presented under social, economic and governance sectors. What do we know about Mediterranean Cold (Deep)-Water coral ecosystems? In this book, specialists offer answers and insights with a series of chapters and short papers about the paleoecology, biology, physiology and ecology of the corals and other organisms that comprise these ecosystems. Structured on a temporal axis—Past, Present and Future—the reviews and selected study cases cover the cold and deep coral habitats known to date in the Mediterranean Basin. This book illustrates and explains the deep Mediterranean coral habitats that might have originated similar thriving ecosystems in today's Atlantic Ocean. Books prepared as per NORCET, AIIMS, RRB, ESIC, DSSSB, JIPMER, PGIMER, GMERS, CHO-GUJARAT etc. Hand picked Most Important Exam Oriented Material Easy to remember Used Graphics and Tables for better and fast understanding Quick Revision Tool for exams and can be Completed in Few Hours Can be Useful as Foundation Stones for MCQs This is a collection of papers co-authored by members of the Department of Economics and Related Studies and the Institute for Research in the Social Sciences at the University of York, which deals with methods for calculating asymptotically valid tests for use with samples of the size available in empirical economics. The papers also address the scope for using test statistics to determine the nature of specification errors and for providing suitable corrections to estimates or parameters. Este tratado de Medicina Paliativa proporciona una cobertura completa y exhaustiva, dirigida a garantizar la atención óptima de aquellos pacientes con patologías terminales. La primera edición de este libro está dirigida a todos aquellos especialistas que, de una y otra manera, se ocupan del cuidado de estos pacientes. Médicos de atención primaria, geriatras, especialistas en cuidados paliativos, internistas, oncólogos y especialistas en dolor, entre otros, son los profesionales principales a los que va dirigida esta obra. En este libro ha participado un amplio equipo de profesionales, procedentes de todo el espectro internacional y de diversas disciplinas, lo que hace que la obra presente una amplia cobertura de planteamientos dirigidos a los cuidados paliativos. A lo largo de los 254 capítulos en los que se distribuyen los contenidos han participado un total de 18 especialistas españoles, lo que hace que la obra sea muy adecuada para los profesionales de nuestro país. El Dr. Juan Manuel Núñez de Olarte, Jefe de la Unidad de Cuidados Paliativos del Hospital Gregorio Marañón de Madrid y editor asociado de la obra en su versión inglesa, ha sido el encargado de realizar el prólogo a la edición española de la misma. "This publication contains papers that present original results in business modeling and enterprise engineering, database research, data engineering, data quality and data analysis, IS engineering, Web engineering, and application of AI methods. The contributions are from academics and practitioners from the entire world. We hope that the presented results will contribute to the further development of research in DB and IS field. The conference where these papers were presented has been approved by the IEEE Communication Society for Technical Cosponsorship. All papers have been extended significantly and rewritten completely. They have been reviewed by at least 3 reviewers from different countries who evaluated their originality, significance, relevance, and presentation and found their quality suitable for the publication in this volume." This book provides an overview of the monetary and financial systems seen in Africa. The issues related to these systems are examined to help evaluate their effectiveness in fostering the development of African economies. Economic integration is extensively discussed to highlight variations between different parts of Africa and the specific challenges seen within certain regions. The impact of monetary unions, in particular the CFA franc zone, on economic activities is also explored. This book aims to outline how sustainable development can be achieved in Africa through well-developed financial and monetary institutions and policies. It will be relevant to students, academics and policy makers interested in African and development economics. This Selected Issues paper and Statistical Appendix analyzes the relationship among prices, income, and money in Madagascar over the period 1982–2004. It finds that a stable long-run relationship for the price level exists, but that the adjustment toward this long-term equilibrium is quite slow. The paper presents an assessment of the real effective exchange rate. It also presents some qualitative competitiveness indicators and examines the performance of exports in Madagascar at an aggregate and product level. "This anthology combines 15 years of microstrip antenna technology research into one significant volume and includes a special introductory tutorial by the co-editors. Covering theory, design and modeling techniques and methods, this source book is an excellent reference tool for engineers who want to become more familiar with microstrip antennas and microwave systems. Proven antenna designs, novel solutions to practical design problems and relevant papers describing the theory of operation and analysis of microstrip antennas are contained within this convenient reference." SURPLUS RECORD, is the leading independent business directory of new and used capital equipment, machine tools, machinery, and industrial equipment, listing over 110,000 industrial assets since 1924; including metalworking and fabricating machine tools, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more. Over 1,100 businesses list with the SURPLUS RECORD. March 2023 issue. Vol. 100, No. 3 A proper understanding of the words and the context in which they occur is fundamental to the study of Greek religion. This volume seeks to make a significant portion of the source material available to present-day students of religions in the Graeco-Roman world. The ancient texts are accompanied by English translations. Revised chapters from the seminal works by Zijderveld (1934) and Van der Burg (1939) show a whole range of different contexts in ancient literature, thus arguing against an automatic equation of and with mystery rites. New chapters give an overview of the loanword orgia in Latin poetry, and of and in the epigraphical evidence. This paper presents a Joint Staff

Advisory Note on the Federal Democratic Republic of Ethiopia's Poverty Reduction Strategy. Excessive domestic bank financing of the budget deficit could crowd out the private sector, increase pressure on reserve and inflation targets, and, given the already high levels of domestic debt, increase vulnerability to macroeconomic shocks. Public infrastructure investment recently increased substantially despite the lack of sound cost-benefit analysis. The strong pro-poor emphasis of government expenditure is paying off in terms of improvements in education and provision of health services.
